

About the College : T.K.M. College of Arts & Science, Kollam, today, is an acknowledged premier institution in the field, having been re-accredited with 'A' Grade by the National Assessment and Accreditation Council. The College opened its portals to the student community in 1965, when the institution was declared open on 24 June 1965, by Prof. Samuel Mathai, the then Vice-Chancellor, University of Kerala. The College was a force to reckon with by the time she came to celebrate her Silver Jubilee in 1990. Today, the college offers courses in virtually all faculties, having ten under-graduate, six post-graduate and Three Ph.D Research Programmes. Over the years, the college has secured many University ranks and found an enviable position in the honour rolls of the University of Kerala. The excellent infrastructure offered by the college provides a highly conducive learning environment for various academic courses and research. The campus is equipped with most modern facilities like fully automated library, smart seminar hall, conference hall, computer labs, research labs, two well-maintained modern hostels, fully equipped gymnasium which includes a multi-station for strength training, body building and weight lifting. The college has now a history of 50 years of academic opulence and celebrated its Golden Jubilee in 2015. The campus is located at Karicode, 6 k.m. from the heart of Kollam city in South Kerala. The campus possesses an enviable ambience, being a beautiful suburb of the historical coastal city of Kollam, on the Kollam - Shencottah road. The institution is within easy reach by rail and road. The international airport at Trivandrum is just 70 k.m. away.

About the Seminar : A tectonic shift in higher education in India took place with the formation of the National Accreditation and Assessment Council and initiation of the process of quality benchmarking and grading of academic institutions. In recent years, this process has become more comprehensive, more scientific, and more nuanced, igniting revolutionary transformations in the world of higher education. This seminar is an attempt at mapping this process, identifying the hurdles to quality enhancement and locating the trajectories to be followed in order to attain quality goals in higher education.
