

## **DIGITAL LITERACY SURVEY**

We are living in the world which is at industrial revolution 4.0. Technology and its usage are at its peak. We are reliant on technology for each and every aspects of our life. It is really needed to know about how to use gadgets. Especially at this period where everything is being digitalized it is necessary to get acquainted with their uses.

Every 10<sup>th</sup> of December is celebrated as digital literacy day. To know and be aware of the digital literacy among people in our adopted village a survey was done among them. Our volunteers in teams visited the people and asked them the questions from Prepared questionnaire. Details from them are collected and the results were analyzed.

From the results it was clear that not many people are unaware of the digital literacy but still there were some who does not even know about basic uses of gadgets. It will be really arduous for them to survive in this society without

knowing all this. So we had decided to do the necessities to teach them the basics in the near future.
