

## Anti-Drug & Suicide Prevention Program

Date: 14 July 2023

The railway has always been the largest mode of transportation in our country. Most people in India choose railways as their primary means of travel due to its affordability and accessibility. However, railway-related accidents, suicides, and crimes are rising at an alarming rate. This underscores the urgent need to spread awareness about the precautions and disciplines to be maintained during train journeys.

To address these concerns, the NSS unit of our college, in association with the Kerala Railway Division, Punalur, organized an anti-drug and suicide prevention awareness program at Kilikkollur railway station. The program aimed to educate volunteers about the increasing drug-related crimes on trains and the accidents that occur due to drug use or other factors.

Each officer who delivered a speech shared real-life incidents, providing us with a deeper understanding of the severity of these issues. They emphasized the need to stay vigilant while traveling, highlighting the risks posed by deceivers, which can lead to serious narcotic-related legal troubles. The officers also detailed the legal actions that are taken for various crimes committed on trains.

The program was highly informative and enlightening for the volunteers, offering insights that were previously unknown to many of us. Additionally, our volunteers from the Asaad Sena performed a play on the topic of drug abuse, which was met with immense appreciation from the audience.

This initiative not only helped raise awareness but also empowered us to act responsibly and stay cautious during train journeys. It was a valuable experience that left a lasting impact on all participants.
