

## International Year of Millets

As part of the International Year of Millets, NCC cadets organized a millet awareness campaign on August 1st at the college premises and in Kottamkara Panchayat. The initiative aimed to highlight the nutritional benefits and environmental sustainability of millets. 20 cadets participated in the program. In the college, cadets interacted with students, showcasing posters and presentations that emphasized the role of millets in combating lifestyle diseases and promoting food security. The campaign included a cooking demonstration featuring millet-based dishes, which garnered enthusiastic participation from the student community. At Kottamkara Panchayat, cadets conducted door-to-door interactions and addressed small gatherings, sharing insights on millet cultivation, its health benefits, and its adaptability to local farming conditions. Informative pamphlets were distributed, and villagers were encouraged to include millets in their diet. The campaign was well-received, fostering awareness and generating interest in this sustainable crop among both urban and rural communities.
