To commemorate World Diabetes Day 2023, a free diabetes screening camp for the general public was jointly organized by KIMS Health Hospital, Kollam, and the Department of Biochemistry, T.K.M. College of Arts and Science, Kollam. The event was held on Tuesday, November 14, 2023, on the college campus and provided an excellent opportunity for diabetes awareness and early detection.

'Madhura Vandhi' Diabetes Screening Bus

A special KSRTC bus, named '*Madhura Vandhi*,' equipped with doctors, medical professionals, and an advanced diabetes screening system, arrived on campus at 11:30 AM. This mobile unit, a highlight of the event, was warmly welcomed by the Principal, Dr. Chitra Gopinath, and the faculty of the Department of Biochemistry.

Report of the Event on News Paper

Snapshots from the Free Diabetes Screening Camp: A Step Towards Better Health

The camp drew enthusiastic participation, including 27 teaching and non-teaching staff members who underwent diabetes screening. The event provided a convenient and professional platform for attendees to monitor their health and raise awareness about the importance of diabetes prevention and management.

The camp was efficiently coordinated by Dr. Ansil P.N., along with Soumya S. and Dr. Sumayya A.S., Assistant Professors of the Department of Biochemistry. Their meticulous planning and execution ensured the program's success.

The free diabetes screening camp was a valuable initiative that emphasized the importance of diabetes awareness and early detection. The collaboration between KIMS Health Hospital and the Department of Biochemistry exemplified a shared commitment to community health. The event was well-received, and the public was encouraged to take maximum advantage of the free screening service, aligning with the global mission of combating diabetes effectively.
